

Explore Our Learning Library

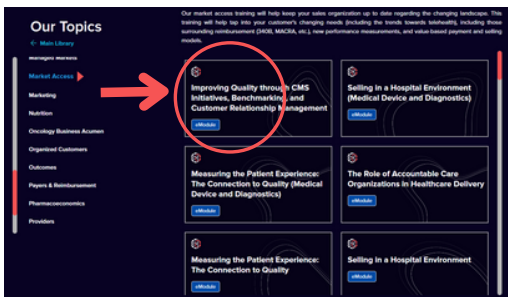

We invite you to explore how our resources can meet the needs of your teams. Build an initial list of resources from our learning library that we can further refine with you. Our experts will help you curate specific resources and pathways and additional assets like coaching guides or facilitator guides. And when you are ready, we'll help you launch, execute, support, and evaluate your program

How To Curate A Learning List

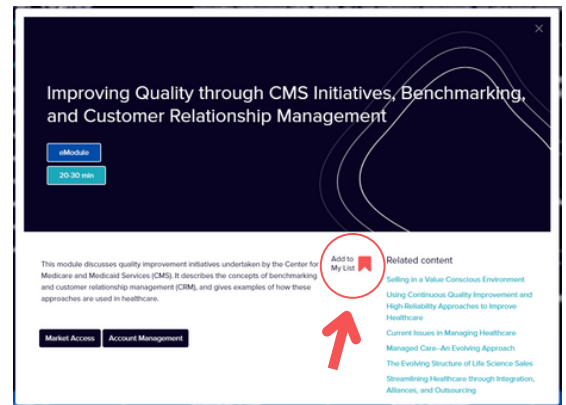

1. Either click on a library category or use the search bar to search for a keyword.

2. Select a module that you'd like to read more about or to add to your list.

3. If you'd like to add a module to your list, click on the "add to my list" ribbon to turn it from gray to red. Repeat steps 1-3 until you have selected all of your desired modules.

4. Once complete, click on "My List" and then choose "save list". Choose "share list" to email the saved list to yourself and to CMR so that we will be ready to assist you.
